October 2013

Joint Medical Asset Repository (JMAR)

JMAR is an information technology system within the Defense Medical Logistics – Enterprise Solution (DML-ES) portfolio. The DML-ES portfolio provides a continuum of medical logistics support for the Defense Health Agency. JMAR provides 24/7 access to medical asset information for users, on any computer.

Product Features

- ☐ Capture inventory from all DML-ES applications and serves as the DML-ES Enterprise asset visibility and business intelligence tool
- ☐ Provide secure and timely data on the location, movement, status and identity of medical materiel
- ☐ Provide an interface to the Defense Logistics Agency Troop Support Medical to support Defense Health Agency (DHA) shared services for strategic sourcing optimization and increased purchasing through ecommerce
- ☐ Provide medical logistics metrics within the DHA
- ☐ Accessible worldwide, via the Web, 24/7

Benefits to the Defense Health Agency

- ☐ Authoritative source for providing aggregated medical logistics data to support Department of Defense (DoD) asset visibility
- ☐ Provide clinical views of medical logistics data
- ☐ Provide data through interfaces to support key enterprise activities and capabilities
 - Federal Drug Administration shelf life extension program to be used in theater
 - Web service of inventories targeted for theater consumption and incorporation into the medical logistics common operating picture
- ☐ Provide front-end business intelligence and decision support
 - Critical equipment reporting and equipment maintenance reporting
 - Supply chain dashboards and metrics
 - Contingency and disaster response dashboards and metrics
 - Provide ad hoc query capability allowing users the ability to build custom reports quickly
